THE HUME LITERATURE FOR 1985

The Hume literature from 1925 to 1976 has been thoroughly covered in my book Fifty Years of Hume Scholarship: A Bibliographical Guide (Edinburgh University Press, 1978; £9.50), which also lists the main earlier writings on Hume. (The book is still in print.) Publications of the years 1977 to 1984 were listed in previous issues of Hume Studies.

What follows here will bring the record up to the end of 1985. Readers are invited to inform me of any omissions, and keenly requested to send me offprints of their own articles and reviews. Hardly any do so at present, and it would greatly ease the labour of collection. The intention is to maintain a complete bibliographical record of critical work on Hume, by the regular publication in Hume Studies of this annual bibliography, with addenda consisting of items omitted through ignorance in previous years. References to recently appearing reviews (of books from earlier lists) are given at the end.

The following abbreviations of journal titles are used here:
