The Hume Literature, 1994

WILLIAM E. MORRIS

This bibliography covers the Hume literature for 1994. I have appended a supplement containing additions and corrections to "The Hume Literature, 1986-1993," which was published in the November 1994 issue of *Hume Studies*. I am most grateful to all who contributed additions or corrections to the bibliography, and I again encourage readers of *Hume Studies* to supply additions, corrections, or bibliographical information missing from either bibliography.

For the Hume literature prior to 1986, the reader should consult Roland Hall's authoritative *Fifty Years of Hume Scholarship: A Bibliographic Guide* (Edinburgh: Edinburgh University Press, 1978), which covers the period 1925 to 1976, and also lists the main earlier work on Hume. Hall's *Hume Studies* bibliographies supplement that work. They appeared from 1978 to 1988 and cover the years 1977 to 1985.

My bibliographies depart from Hall's practice in that they do not list items published in *Hume Studies*. Articles and reviews from 1975 through 1993 (Volumes I-XIX) were comprehensively indexed in the November 1993 issue. Subsequent November issues include an index for that year's volume. Editions of Hume's works and anthologies of his writings are listed in this bibliography under the editor's name.

The next bibliography, which will cover the Hume literature for 1995, will appear in the November 1996 issue. The 1995 bibliography will be expanded to include reviews of books and monographs of the Hume literature since

1986, as well as a listing of doctoral dissertations from that year forward. Readers are again invited to send me notices or offprints of their articles, reviews, editions, anthologies, and dissertations for inclusion in the next bibliography. Please email, FAX, or write to the addresses at the bottom of the preceding page.
