The Hume Literature, 1997

WILLIAM EDWARD MORRIS

This bibliography covers the Hume literature for 1997. I have appended supplements containing additions and corrections to "The Hume Literature, 1986-1993" (November 1994), "The Hume Literature, 1994" (November 1995), "The Hume Literature, 1995" (November 1996), and "The Hume Literature, 1996" (November 1997). I am grateful to all who have contributed additions or corrections to these bibliographies, and I again encourage readers of *Hume Studies* to supply additions, corrections, or bibliographical information still missing from any of these listings.

For the Hume literature prior to 1986, the reader should consult Roland Hall's authoritative *Fifty Years of Hume Scholarship: A Bibliographic Guide* (Edinburgh: Edinburgh University Press, 1978), which covers the period 1925 to 1976, and also lists significant earlier work on Hume. Hall's bibliographies in *Hume Studies* supplement that work. They appeared from 1978 to 1988 and cover the Hume literature for the years 1977 to 1985.

My bibliographies depart from Hall's practice in that they do not list items published in *Hume Studies*. Articles and reviews from 1975 through 1993 (Volumes I-XIX) were comprehensively indexed in the November 1993 issue. Subsequent November issues include an index for that year's volume.

The next bibliography, which will cover the Hume literature for 1998, will appear in the double issue of *Hume Studies* we are publishing for April/November 1999. Readers are again invited to send me notices or offprints of their articles, reviews, editions, anthologies, and dissertations for inclusion

in the next bibliography. Please email, fax, or write to the addresses at the bottom of the preceding page.
