# The Hume Literature, 2001

WILLIAM EDWARD MORRIS

This bibliography covers the Hume literature for 2001. I am grateful to all those who contributed additions or corrections to previous bibliographies, and I again encourage readers of *Hume Studies* to supply additions, corrections, or bibliographical information still missing from any of these listings.

For the Hume literature prior to 1986, the reader should consult Roland Hall's authoritative *Fifty Years of Hume Scholarship: A Bibliographic Guide* (Edinburgh: Edinburgh University Press, 1978), which covers the period 1925 to 1976, and also lists significant earlier work on Hume. Hall's bibliographies in *Hume Studies* supplement that work. They appeared from 1978 to 1988 and cover the Hume literature for the years 1977 to 1985. My bibliographies depart from Hall's practice in that they do not list items published in *Hume Studies*. Articles and reviews that appeared in *Hume Studies* from 1975 through 1993 (volumes 1–19) were comprehensively indexed in the November 1993 issue. Subsequent November issues include an index for that year.

The next bibliography, which will cover the Hume literature for 2002, will appear in the November 2003 issue of *Hume Studies*. Readers are invited to send me notices or offprints of their articles, reviews, editions, anthologies, and dissertations for inclusion in the next bibliography. Please e-mail or write me at the addresses listed at the bottom of this page.
