THE HUME LITERATURE FOR 1976

A fairly complete coverage of the recent Hume literature up to 1970 is available in my booklet, A Hume Bibliography from 1930 (York, 1971; obtainable direct from the author, post free, on payment of £ 1.25 within the U.K., £3.00 or \$8.00 elsewhere). Coverage up to 1975 is obtained when this is combined with the addenda and supplement published in the Philosophical Quarterly in January 1976.

What follows here will bring the record up to the end of 1976. Readers are invited to inform me of any omissions. The intention is to maintain a complete bibliographical record of critical work on Hume, by the regular publication in Hume Studies of an annual bibliography covering the previous year.

In a forthcoming book (Edinburgh University Press; probable title, Fifty Years of Hume Scholarship) I have tried to provide all that the student of Hume needs as a guide to the secondary literature: an introductory essay on the development of Hume scholarship up to the present time, thorough coverage of the Hume literature from 1925 to 1976, with indexing by author, language, and subject, and also a list of the main writings on Hume earlier this century.
